Washington.-At the conclusion of an extended Cabinet meeting June 8, President Wilson caused Secretary Tuto Germany was complete.

But the Cabinet is not unanimous in its approval of the President's latest nication. Secretary Bryan left the White House at the close of the conference, determined to fight for a modification of the note up to the moment it is cabled to Berlin.

It is understood that as the Presi dent's new note now stands, it firmly reiterates the rights of the United States under international law as set

forth in previous communications. Secretary Bryan believes the United States to be on record as favoring arbitration. If this is so, he believes it is mockery to forward a rejoinder which is considers to be an untimatum.

The position taken by the Secretary of State came as a complete surprise to the President. Bryan was known to Beach. favor arbitration, but heretofore he chaser. has stopped short in his fight for this principle when a majority of the Cabinet disagreed with him.

To all inquiries he responded with nothing more than a negative shake of

his head.

For more than an hour the doors of the Cabinet room were closed afteer Bryan entered. Not a murmur of the discussion going on around the table as permitted to leak out.

At last the door opened with a bang.

Secretaries McAdoo and Redfield were the first to emerge.

It is understood that Bryan presented to the Cabinet a memorandum justifying his views that the rejoinder as now framed is not of the character that the United States should send.
